

# DISPLAYPORT™ CONNECTIVITY

DisplayPort is becoming the standard for desktop connectivity. A DisplayPort signal can be used to transport Audio/Video content from a device to a display. Streaming content keeps us connected to the world around us. C2G offers a full line of DisplayPort cables, adapters, and extenders to make these everyday vital connections simple.

## DISPLAYPORT CABLES

DisplayPort Cables are the perfect solution for connecting the DisplayPort output of a computer to the DisplayPort input of a TV or projector to stream audio/video content with up to 4K resolution.
